

Farmstay/Accommodation

At our farm Helluland we offer yearlong the opportunity to take part in our farm life. It does not matter whether you are alone, with family or friends, for everyone is a place to stay. You also have the possibility to take part in our daily work or just enjoy the Icelandic country air

A few highlights of the seasons:

Spring – Processing of the fields for summertime, trianing the horses

May – During this month the sheeps are giving birth to their lambs, which includes a lot of work, you can have a look or help us if you want to

June/July/August – The sheeps are going to the mountains, the mares are giving birth to their foals, hay harvest

September – Sheep and horse round up

Winter – The winter is compared to the summertime calmer, because the sheeps and horses are in the stable or at the fields around next to our house. Also there is the time of the northernlights and once a while it can happen that there is a snowstorm

All year long – the pigs are giving birth to their pigglets, taking care of the pigs, sheeps and horses riding tours
